Creating own styles

## Sample overview

**Regular theme**

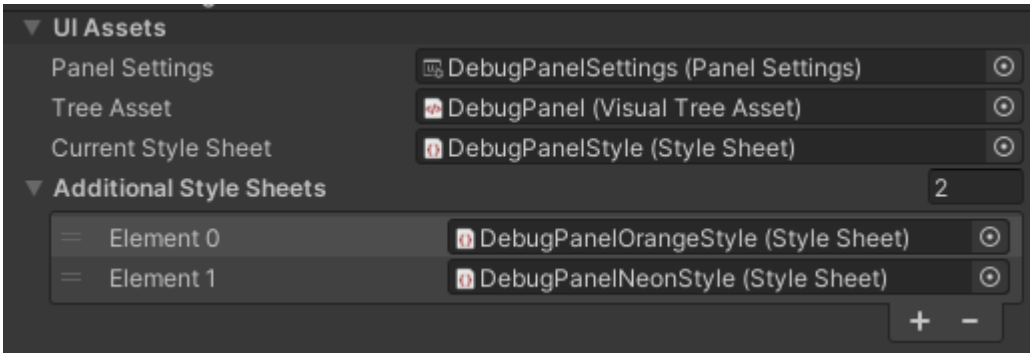

**Custom neon style**

Sample contains debug panel and a custom `DebugPanelNeonStyle.uss` that overrides some of the properties of default style.

Since Debug Panel is UIToolkit based all of the styling is done through USS - unity style sheets. Debug Panel uses default `DebugPanelStyle.uss` and supports list of additional style sheets for overrides such as in example above.

# Settings

Here we have two additional style sheets, that adds more of a character to panel. Last in list style gets the most priority so currently we see neon theme, but if we change order and put `DebugPanelOrangeStyle.uss` last will see the other look.

Neon theme but orange colors

Just the orange colors with default theme

In first case orange colors gets combined with neon bulkier elements

While in second case neon theme removed, and orange colors applied to a more compact base theme

# Additional styles

Orange style is bundled with package source code, as well as Green and Blue

# Creating own styles

Since all of style is defined in uss file you can just ask LLM, AI to make you one)

Here is an example of green style, just a bunch of variables for colors overrides

```css
/* Green/Matrix Theme - Hacker/Terminal Style Colors */
:root {
    /* Button Colors */
    --button-bg: rgba(5, 20, 10, 0.9);
    --button-bg-hover: rgba(10, 35, 20, 0.9);
    --button-border-top-left: rgba(60, 220, 100, 0.9);
    --button-border-bottom-right: rgba(30, 140, 60, 0.9);
    --button-border-hover: rgb(80, 255, 120);
    --button-border-focus: rgb(150, 255, 180);
    --button-text: rgb(100, 255, 140);

    /* Repeat Button Colors */
    --repeat-button-bg: rgba(5, 20, 10, 0.9);
    --repeat-button-bg-hover: rgba(10, 35, 20, 0.9);
    --repeat-button-border-top-left: rgba(60, 220, 100, 0.9);
    --repeat-button-border-bottom-right: rgba(30, 140, 60, 0.9);
    --repeat-button-text: rgb(100, 255, 140);

    /* Group Colors */
    --group-bg: rgba(5, 15, 10, 0.81);
    --group-border-top-left: rgba(60, 220, 100, 0.9);
    --group-border-bottom-right: rgba(30, 140, 60, 0.9);
    --group-text: rgb(180, 255, 200);
    --group-checkmark-color: rgb(100, 255, 140);
```
